

We are grateful to Hoy and Eunice Grigsby of Crossett, AR, for this research. Hoy wrote, "I believe this map will have general interest. It serves a greater purpose than a list showing the number of Grigsbys per state. It shows the approximate place of residence within the state, and it appears one can even detect migration routes."

Each dot represents the address of an individual or a family. Rand McNally maps were consulted in arriving at the approximate location of each town or city. Data sources: 1988 National Grigsby Family Society Membership Directory and an accumulation of addresses provided by John E. Grigsby, Tishomingo, Oklahoma.

THE GRIGSBYS: WHERE THEY LIVE
